

Statement to the Media by A/SASG Bутtenheim

“The leaders met in a positive and friendly atmosphere.

The leaders agreed to visit together the anthropological laboratory of the Committee on Missing Persons on 24 July directly prior to their meeting on the same day.

The leaders instructed their negotiators to conduct an additional, special meeting on the issue of confidence-building measures, and also on the methodology and the way forward, based on the proposals submitted by both sides, with a view to preparing suggestions for the next leaders meeting.”
